1. Introduction

1.1. Executive Summary

- 1.1.1. This Procurement Policy sets the mandatory procurement rules for Brunel University London (BUL) to follow. This policy is applicable to any persons or organisations that are responsible for supplier selection, awarding, managing and monitoring contracts for BUL.
- 1.1.2. The Policy applies to all procurement and contract management activity. This policy is designed to ensure that BUL achieves best value from procurement activities, risks are minimised, procurement complies with BUL's own Financial Regulations, the most up to date Public Contracts Regulations, the most up to date Concession Contracts Regulations and other relevant legislations in place.
- 1.1.3 The Policy also applies for externally funded or collaborative projects where BUL is the contracting authority conducting the procurement and signing the contract (e.g. collaboration agreements with other Institutions).
- 1.1.4 Overarching principles of the Policy are:
- Best Value (MAT – most advantageous tender) shall be obtained for all works, goods and services procured;
 - Compliance with the Public Procurement Regulations is paramount;
 - All procurement shall take place in an open and transparent manner;
 - Fairness, with all potential and existing suppliers being treated equally;
 - All actions are compliant with UK and EU Legislation;
 - Responsible Procurement is applied (including where possible social, economic and environmental characteristics) to all strategic procurement.

2. Operating Model

2.1. Responsibility and application of the Policy

- 2.1.1 The overarching responsibility of Procurement lies with the Director of Procurement, who is accountable to the Chief Finance Officer. Any interpretations of this Policy will be clarified by the Director of Procurement.
- 2.1.2 All parties involved in the procurement process shall ensure they are aware of and comply with all relevant legislation, corporate strategies and policy.
- 2.1.3 If any party finds themselves in a situation of potential, perceived or actual conflict of interest, they must take the necessary action to disclose it formally to the Director of Procurement for decision.

2.2. The Procurement Department

- 2.2.1. The Procurement Department applies a Category Management approach for managing all spend and leads on procurement activity over £50,000 excluding VAT.
- 2.2.2. The Procurement Department will aim to aggregate spend and contract for goods and, or services over multiple years to ensure BUL can derive maximum value and economies of scale from the procurement. The contract term will be determined by the Procurement Department in

conjunction with the relevant College/Directorate. For more information on spend, please refer to section 3.4.

2.2.3. The purpose of the Procurement Department is to ensure that the required goods, services and works arrive at the right place, time, quality and cost in order to support the delivery of the University's key organisational objectives and in making commercially sound decisions which incorporate:

- Value for Money
- Whole Life Costing
- Sustainability/Social Value Considerations
- Compliance with the latest Government Procurement Regulations
- Compliance with the latest GDPR Regulations

2.3. Category Management

2.3.1. Category Management is a strategic approach which organises Procurement resources to focus on specific areas of spend.

2.3.2. The Category Managers will focus their time and conduct in depth market analysis to fully leverage their procurement decisions on behalf of BUL.

2.3.3. The major spend categories are:

| Major Spend Categories |
|---|
| Soft Facilities Management |
| Construction & Hard Facilities Management |
| Information, Communications & Technology |
| Professional Services |
| STEM, Teaching/Research Projects |

2.3.4. The Procurement Department includes specialist Category Managers who will be the commercial lead and provide expert knowledge and advice. All Category Managers are aligned to the Major Spend Categories as per 2.3.3 in order to deliver all procurement with an aggregated value over £50,000.

2.4. Procurement Operations

2.4.1. The Procurement Operations team provides the framework within which procurement and contract management activity is performed, including policy, process, governance, performance and systems.

2.4.2. Procurement Operations supports the procure to pay (P2P) activity for BUL, advising on all aspects of the procurement cycle and the use of the ERP System for raising requisitioning all the way through goods receipting.

- 2.4.3. Procurement Operations is responsible for the management of BUL's Purchasing Card (PCard) Programme.
- 2.4.4. Procurement Operations will carry out due diligence checks on all new suppliers, before they are approved. These checks will be completed and recorded by the Procurement Operations team and include:
- Financial data on the supplier,
 - Financial strength (a Credit Safe report will be generated, any Supplier scoring lower than 30 will be rejected),
 - Insurances,
 - Conflict of interest declaration, and
 - References (if required).
- 2.4.5. The Procurement Department doesn't allow retrospective set-up of Suppliers. Retrospective setup meaning the Supplier has already committed to provide work/services to the University at the point of request. This is to allow the Procurement Department to advise at the point of the set-up request whether a preferred Supplier should be used instead. All retrospective Supplier set-ups will be recorded for audit purposes. Non-compliance with this process may lead to the Procurement Operations team to reject the retrospective set-up request.
- 2.4.6. Procurement Operations requires users to attach the relevant supporting information (please refer to section 3.12 on the need for quotes, etc.) to their Supplier set-up and/or STA as the spend committed to on these forms will be monitored. This is to ensure that:
- The spend thresholds are being adhered to for audit purposes; and
 - If overspend occurs, explore the needs for any tender to be run and contracts to be put in place.

2.5. Brunel eSourcing

Brunel eSourcing is BUL's Procurement Portal which encompasses spend analysis, strategic sourcing, evaluation, contract management and supplier performance management in an integrated portal. Brunel eSourcing can be found at www.BrunelSourcing.com.

2.6. Officers

- 2.6.1. Individual officers at BUL are responsible for sourcing activity under £50,000 (exc VAT) and shall ensure they are aware and comply with all relevant legislation and policy.
- 2.6.2. The Procurement Department has published guidance for procuring below £50,000 (exc VAT) and will continue raising awareness through the organisation of yearly Roadshows.
- 2.6.3. Contract management responsibilities are outlined paragraph 3.19.
- 2.6.4. If officers are unsure of best practice, guidance is to be sought from the Procurement Department by emailing procurement@brunel.ac.uk.
- 2.6.5. Lead Officers with accountability for the delivery of goods, services and works will engage the Procurement Department to lead procurement on their behalf over £50,000 (exc VAT).

2.7. Code of Conduct

2.7.1. BUL expects all officers involved in procuring goods/services to behave with the highest levels of integrity in accordance with the Bribery Act 2010, Code of Conduct detailed in BUL's Financial Regulations and Anti Bribery Policy.

2.8. Receiving Gifts or Hospitality

2.8.1. BUL expects all officers involved in procuring goods/services to comply with the overarching University policy relating to Receiving Gifts or Hospitality detailed in BUL's Financial Regulations.

2.8.2. Failure to adhere to these conditions may result in disciplinary action.

2.9. Conflicts of Interest

2.9.1. The University is required to take appropriate measures to effectively prevent, identify and remedy conflicts of interest arising in the conduct of the procurement so as to avoid any distortion of competition and to ensure equal treatment of all economic operators. This should be monitored throughout the soft market testing exercise to ensure those conflicts do not arise, or if they do, they are dealt with appropriately and in accordance with the Regulations. All new Supplier Set-Up requests also contain a section where the person requesting the set-up will have to declare any conflict(s) of interest to Procurement prior to engaging with the Supplier.

3. Procurement Planning

3.1. Corporate Contracts

3.1.1. The Procurement Department has awarded a range of Corporate Contracts for goods, services and in some cases works that are commonly required. The use of these Corporate Contracts is mandatory and compliance will be monitored/reported upon.

3.1.2. Corporate Contracts may be accessible through a range of procure to pay (P2P) solutions. These solutions may include but will not be limited to Punchout Catalogues via CHIME, Purchase Requisitions via CHIME and Supplier Portals. The P2P route to be followed will be advised directly by the Procurement Department.

3.1.3. Buying Guides for each procurement areas detailing which Corporate contracts are in place are available on the Intranet. Officers must seek advice from the Procurement Department if unsure whether a Corporate Contract is available and, or which P2P route should be followed.

3.2. Estimating the Total Contract Value

3.2.1. Officers should calculate a genuine pre-estimate of the total contract value excluding VAT. This should be for the whole life of the contract period which must include any provisions for extensions. If the terms of a contract are yet to be established or uncertain, then a 4-year contract should be assumed for the purposes of estimating the contract value.

- 3.2.2. Officers must not deliberately sub-divide or disaggregate procurement for the purpose of avoiding thresholds.

3.3. Spend Definitions

- 3.3.1. **Works** are defined as the construction, demolition, transformation or repair of a building or location.
- 3.3.2. **Goods and Services** are defined as the provision of tangible items (goods) or intangible routine actions (services) that are required to fulfil a need.
- 3.3.3. **Consultancy Services** are defined as the provision of objective advice relating to strategy, structure, management or operations of an organisation. For the avoidance of doubt, Architectural services are not classed as the provision of Consultancy but will fall under the definition detailed under item 3.3.2 Goods and Services.

3.4. Standard Procurement Documents

- 3.4.1. The Procurement Department is responsible for developing and maintaining standard procurement documents to be used when conducting tender or requests for quotations. The standard documents/templates shall be used for all new strategic procurement.

3.5. Terms & Conditions of Contract

- 3.5.1. BUL will only use and accept its own standard Terms and Conditions. The standard terms and conditions are located on the Intranet. Any variation to the standard Terms and Conditions will require express authorisation and advice from the Procurement Department, who will seek advice on alternative clauses from Legal Services as appropriate. Exceptions to be agreed with the Procurement Department would normally be Joint Contract Tribunal (JCT) terms and conditions and those associated with approved Frameworks.

3.6. Evaluation Criteria

- 3.6.1. The standard evaluation criteria for any procurement is weighted 60:40 to Cost:Quality. Any deviation from this ratio requires the Director of Procurement's approval. This rule to obtain approval will not apply to procurement where the total contract value is below £100,000 and the price criterion is increased.

3.7. Responsible Procurement

- 3.7.1. For all contracts with a total contract value of £100,000 or above, BUL requires a minimum of 5% of the total weighting of the tender evaluation score to be allocated for Responsible Procurement. This will be derived from the Quality section of the evaluation and will include social, economic and environmental characteristics (example: Quality has 40% overall weighting Social Value will be 5% of that weighting allowing 35% for other quality evaluation criteria).

3.8. External Frameworks (including Dynamic Purchasing Systems)

- 3.8.1. Prior to using an external framework (or DPS) for the first time, the Procurement Department will undertake a due diligence assessment.

3.9. Access Agreements (including Dynamic Purchasing Systems)

- 3.9.1. Where use of a framework (or DPS) requires BUL to sign an Access Agreement (or similar) with an external contracting authority, the agreement must be reviewed by the Procurement Department and authorised by the Director of Procurement.
- 3.9.2. Mini-competitions, desktop evaluation and direct awards from frameworks (or DPS), over £50,000 (exc VAT) should be administered through the Procurement Department and conducted using the Esourcing portal.

3.10. Procurement Strategy Thresholds and Approval

- 3.10.1. The Procurement Strategy thresholds determine the approach to be applied to all procurement activity and set the type and levels of approvals before engaging the market via an appropriate route to market and procedure..
- 3.10.2. Where procurement is considered to be high risk, the appropriate Category Manager must be consulted.
- 3.10.3. A Procurement Strategy may include a programme of works/projects over a defined period of time. Any deviation from an approved procurement project strategy will require officers to seek approval again.

3.11. Procurement thresholds

| Estimated Total Contract Value (exc VAT) | Key Points and Requirements | System | Approval Required By |
|---|--|---|--------------------------------|
| Low Value Under £15,000 | Obtain a minimum of 1* quote | Email. | Appropriate Head of Department |

3.12. Single Tender Actions (STA)

- 3.12.1. In exceptional circumstances a waiver or STA to the requirements of the Procurement Policy may be sought.

3.12.3. All STA's must be reviewed by the appropriate Category Manager and Director of Procurement prior to issue for approval.

| Estimated Total Contract Value | Approval Required By |
|--------------------------------|---|
| Less than £1.0m | Director of Procurement |

3.14. Non-Compliance

3.14.1. STA's will not be granted retrospectively. Requests for retrospective waivers, where a commitment has been made to a provider of works/goods/services without appropriate approval, will be reported to the Audit Committee as non-compliant and will also be reported to the Executive Board as part of the quarterly contract review and to the Audit Committee as part of the Annual Contract Review.

3.14.2. Proceeding with a non-compliant procurement without the appropriate approvals will be the responsibility of the officer involved and the relevant member of BUL Leadership Team.

3.15. Contract Award Thresholds and Approval

3.15.1. The contract thresholds set out the level of approval required by officers prior to proceeding with the award of a contract and the authorised officer able to execute a contract. When seeking approval for a contract award, officers must clearly state the contract term (which must include any provisions to extend).
