Follow the instructions and choose the directed number of credits from each list. Be aware that there may be different lists to choose from, so check the entire page before getting started.

Expand the lists by clicking **View List**, then click **Add** to select a module and add it to the **Selected Modules** list. Please bear in mind that some modules may have limited spaces, so the sooner you complete the task the better. Your Taught Programmes Office should be able to help if you have any queries at this stage.

If you select too many modules from one list, you will receive an error message, so go back and double check the instructions.

When you have selected the number of credits required, click the **Next** button underneath the **Totals** on the right-hand side. You will be directed to correct any mistakes via a pop-up message before proceeding.

Confirm Selections

Please ensure that you are happy with your module selections before pressing the Confirm Selection button as selections can not be changed once confirmed.

Undo Last Change Confirm Selections

If you change your mind, you can click **Undo Last Change** to re-enter the task. Otherwise click **Confirm Selections** to continue. The next screen will show you your confirmed modules, and with this the task is complete.

Some programmes have more complicated rules than others, for instance choosing one box of options may cause others to be 'greyed out' as the programme states that you're not able to choose more than one box.

To access a different box you may need to de-select any choices you have made. Please refer to the programme specification or ask at your [Taught Programmes Office](#) if you have any questions.

If you have any questions not covered here, please contact your [Taught Programmes Office](#) in the first instance, who will be best placed to answer most common questions and offer advice on your particular course.

The task may time out if you do not complete it within a certain amount of time - this can easily be reset by the Timetabling team, so don't panic. Your Taught Programmes Office will contact Timetabling in these cases and request that either the task is reset, or any choices made be pushed through to completion.
